

What is the latest technology doing to our vision?

80% of Americans report experiencing symptoms of digital eye strain (DES).¹

27% of Americans do not know computer eyewear can protect against digital eye strain.²

HOYA lens designs and treatments can enhance and protect your vision.

Computer and Work Lenses

Short Distance / Intermediate

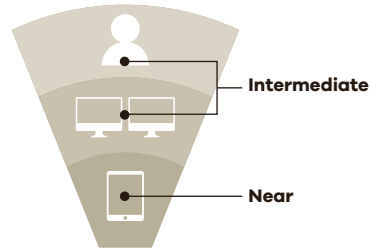

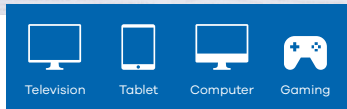

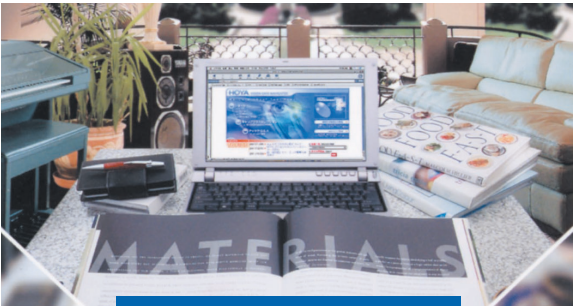

iD SPACE

iD Space™

The ideal lens for performing activities where the focus is beyond the distance of a computer screen. This design is ideal for people who are more mobile in their office environment.

Short Distance / Intermediate / Near

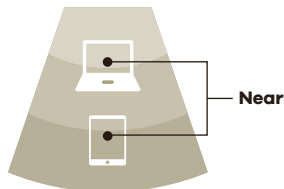

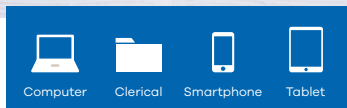

iD SCREEN

iD Screen™

Best choice for professions requiring maximum clarity at an intermediate distance, like those working in office environments. This design is ideal for anyone working on dual monitors.

Intermediate / Near

iD ZOOM

iD Zoom™

Perfect for laptop and hobbies requiring high levels of concentration and sharp vision at close range. Providing the widest possible near area and offering clarity at a shortened distance.

Progressive lens designs for today's digital lifestyle.

HOYA builds the bridge between technology and experience with our latest iD lenses designed for your digital lifestyle.

HOYA iD Space, iD Screen and iD Zoom lenses utilize both the front and back surface for unparalleled workspace comfort.
